

Don't Be Fooled!

Big Corporations are trying to hide their record profits by blaming ethanol for food prices.

Kraft Foods Earn Record 27% Profit

The Real Story:

Ethanol Plants Produce both FOOD and FUEL.

- Ethanol saves consumers 50¢ on every gallon of fuel.
- Ethanol's co-product, Distiller's Grains, is a high-quality livestock FEED ingredient that helps reduce the cost of meat, milk, and eggs.

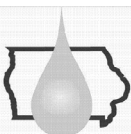

Sara Lee Profits Soar by 61%

Ethanol Protects the Family Budget!

General Mills' Profits Jump by 9%
