

The Fuel of the Future is Here

Henry Ford once said ethanol is the fuel of the future... The Future is Now!

Whether fueling an old camaro or an Indy Car, ethanol is a low-cost, high performance fuel.

Why Use Renewable Fuels?

- Ethanol saves consumers 50¢ on every gallon of fuel
- Attracted over \$3 billion in investments in Iowa
- Keeps money in the pockets of hard-working Iowans

Local. Cheaper. Cleaner...Better.
Renewable Fuels - the "American Solution."
